Summary

Enthusiastic and dedicated React.js Developer with a strong foundation in front-end development.

Proficient in building intuitive user interfaces and implementing React.js components.

Eager to contribute to dynamic projects and continuously learn and grow as a fresher in the industry.

Skills

HTML5, CSS3, Bootstrap, JavaScript, JSON, React.js, Redux, API, Git, Figma, HTTP, XML, JSON, DOM

Experience

Ekalaiv private limited | Coimbatore, Tamil Nadu
FrontEnd Developer (Intern) | 03/2022 - 08/2022

- Designed and updated layouts to meet usability and performance requirements, ensuring an intuitive user experience.

- Integrated APIs and performed data integration for seamless communication between the frontend and backend systems.

- Implemented unit testing using Cypress, ensuring the reliability and functionality of web applications.

- Updated and developed reusable components in React.js, enhancing code modularity and efficiency.

- Demonstrated strong problem-solving skills and attention to detail while troubleshooting and debugging issues in the development process.

- Contributed to the overall development lifecycle, from requirement gathering and design to development, testing, and deployment.

Education

Kamaraj College of Engineering & Technology | Virudhunagar, Tamil Nadu
06/2022

    BE - Computer Science and Engineering - 7.6 CGPA

Sri Sowdambika Convent Matri Hr Sec School | Aruppukkottai, Tamil Nadu
Computer Science

    Higher Secondary 06/2018 - 74.33%

    SSLC 05/2016 - 90.4%

Project

USER MANAGEMENT SYSTEM

- Developed a user management system website using React.js, Axios, and React Router.

- Implemented three main pages: home, user, and contact, allowing users to navigate between them seamlessly.

- Utilized MockAPI, a simulated API platform, to make API calls and interact with the server-side database.

- Implemented routing using React Router to enable smooth navigation between different pages.

- Ensured a responsive and visually appealing design using HTML5, CSS3, and Bootstrap.

E-Commerce Website with Authentication

- Created a fully functional e-commerce website with authentication features using React.js and Redux for state management.

- Implemented user authentication functionalities such as user registration, login, and logout using Firebase authentication.

- Integrated Redux for efficient state management, ensuring seamless data flow between components and enhancing performance.

- Implemented a dynamic shopping cart functionality allowing users to add and remove items, calculate total prices, and proceed to checkout.

- Utilized React Router for smooth navigation between different pages, including product listings, product details, and user account settings.

Course - MERN STACK DEVELOPMENT

Successfully completed **Frontend Web Development** (HTML, CSS, Bootstrap, Javascript, Reactjs) 4-month course at **Besant Technologies** Velachery,Chennai.

Currently learning **NODE JS** with **Express** and **MONGODB**
